Natural Rubber Insertion

Description: Natural Rubber is CIS-Polyisoprene an extract of latex of Hevea Basiliensis. An insert of either Polyester or Cotton is included. Recommended for use with air, water and diluted acid, where extrusion could be a problem, on heavy flanges with high bolt loads or in fluctuating temperature and pressure conditions.

Specification:	Hardness	Shore A 65
	Specific Gravity	1.49
	Working Temperature	-25°C to 70°C
	Tensile Strength	4.5Mpa
	Elongation	350%

Properties: Excellent Mechanical properties
Low Compression Set & High Resilience
Dynamic properties are excellent
Good ozone, acid & alkali resistance, but not adequate for use with oils & solvents
